

## Health Insurance Options for Students

The Patient Protection and Affordable Care Act, otherwise known as the Affordable Care Act, is the new healthcare reform law in the United States, aimed at providing affordable and quality health insurance options to more Americans. Many existing laws related to private and subsidized health insurance, are impacted by this reform.

The following options are available to students for health insurance coverage. Please review all plans and terms carefully, as not every option applies to every student.

- ❖ **COVERAGE FOR YOUNG ADULTS UP TO AGE 26:** If you are under age 26, you may be eligible for coverage under a parent's health insurance plan. If your parent has a family health insurance plan (not Medicaid), the Affordable Care Act requires that the insurance company offer an option for children up to age 26 to stay enrolled on the plan. This applies even if you are married and no longer living in your parents' household. Check with your parents' insurance carrier or agent for information as to how to continue or rejoin coverage under this option.
- ❖ **NEW JERSEY FAMILY CARE** - You may be eligible for health care coverage through NJ FamilyCare, which administers the income-based coverage and expanded Medicaid for the State of New Jersey. For more information about income eligibility and applications, please call NJ FamilyCare at 1-800-701-0710 or visit their website at [www.njfamilycare.org](http://www.njfamilycare.org).
